

UI Design

Home Page

The home page allows the user to enter:

- Name
- User ID
- Age
- Weight
- Fitness Goal
- Workout Intensity

Result Page

The result page displays:

- User information
- 7-day workout plan
- Nutrition/recovery tip
- Feedback form

Admin Page

The admin page displays:

- Registered users
- User information
- Original workout plans
- Updated workout plans

The source describes these three Jinja2 templates as `index.html`, `result.html` and `all_users.html`.
