

Functional Requirements

The FitBuddy application shall:

1. Allow users to enter their personal information.
2. Accept fitness goals such as weight loss, muscle gain or general wellness.
3. Accept workout intensity such as low, medium or high.
4. Generate a personalized 7-day workout plan.
5. Generate nutrition or recovery tips.
6. Allow users to submit feedback.
7. Update the workout plan based on feedback.
8. Store user information.
9. Store generated workout plans.
10. Allow administrators to view registered users and plans.

These functions are directly described in the FitBuddy project source.
